SOFTWARE DEVELOPER

ABOUT ME

I am a Software Developer with a BSc in Computer Science and over 10 years of experience in designing, developing and maintaining software solutions, primarily within e-commerce and cybersecurity.

Throughout my career, I have been involved in technical decision-making, coordinating development work and taking responsibility for seeing projects through to completion. I work well both independently and as part of a team, and value clear communication, collaboration and a solution-oriented approach.

I have a strong interest in technology and continuously seek opportunities to develop my knowledge and skills.

WORK EXPERIENCE

2024
To current

Software Developer · Aftra

- Part of the development team building Aftra's attack surface management platform, helping organizations identify and monitor their external exposure.
- Worked on the core architecture and components of the platform's frontend.
- Led the integration of AwareGO's security awareness training into the Aftra platform, with over 4,000 users completing training within the first month.

2022
To 2024

Software Developer · Syndis

Developing software at Syndis, an Icelandic offensive security company

2018
To 2022

Senior Software Developer · Advania

- Developed and maintained e-commerce solutions for major Icelandic companies.
- Worked directly with clients to understand business requirements and develop tailored technical solutions.
- Played a major role in complex integrations and custom functionality, including combining S4S's separate webstores into one shared shopping cart so customers could browse and buy across brands in a single checkout.

2016
To 2018

Junior Software Developer · Advania

Worked on creating new features & maintaining variety of websites using HTML, CSS, JavaScript, XSLT & C#

2015
Dec

Teaching Assistance · Reykjavik University

Three week seminar for first year students, focusing on building a full fledged MVC application

2015
Jan To May

Teaching Assistance · Reykjavik University

Graded projects for Web development II, an advanced web development course focused on front-end development

PERSONAL

Family. I live with my partner, Sigrún Gunnarsdóttir, who works as an Account Manager at Landsnet. Together, we have two children, Lára (born in 2021) and Gunnar Óliver (born in 2026).

Interests & Hobbies. I have a background in competitive swimming, having trained for 13 years and represented Iceland on the national team. I enjoy running, climbing and Brazilian jiu-jitsu, and have recently taken up golf. I also enjoy gaming in my spare time.

RECOMMENDATIONS

Available upon request

NOTABLE PROJECTS

Aftra — Attack Surface Management Platform aftra.io

Contributed to the frontend architecture and development of Aftra's platform, including technical design decisions, technology selection, implementation and code reviews.

AwareGO Integration

Led the implementation of a new security awareness training feature through the integration of AwareGO, with over 4,000 users completing training within the first month.

S4S

s4s.is

- Played a major role in combining S4S's separate webstores into one shared shopping cart
- Customers can browse and buy across brands in a single checkout

Ölgerðin & Danól

vefverslun.olgerdin.is

- Developed both B2B webstores in DynamicWeb with the Advania team
- Online ordering for the business customers of both companies

Advania Vefverslun

vefverslun.advania.is

- Built the original DynamicWeb version of Advania's webstore, migrating it from LiSA
- First Icelandic webstore built on DynamicWeb

Byko

byko.is

- Part of the team that built Byko's entire webstore
- Launched as Byko invested heavily in online sales instead of opening a new physical store

Arion banki

arionbanki.is

- Part of the team that built Iceland's first online loan affordability assessment
- Lets customers get a loan affordability assessment online in minutes

EDUCATION

2013
To 2016

Reykjavík University
BSc Computer Science with a grade of 8.1/10

2012
To 2013

University of Iceland
Completed coursework in pharmaceutical sciences and biology before pursuing Computer Science.
